

GOLD & Custom Stage Boxes

SB Gold

SB Gold48, 56 and 64 channel Stage Boxes, have been purposely designed to satisfy the need of distributing signals in large venues.

Ideal when used with individually shielded multi-pair **eurocable** (e.g. 48, 56 and 64 pairs) on cable reels and with LK audio multi-pin connectors (e.g. 150 and 200 pins). These Stage Boxes, manufactured in 19" rack boxes, feature individual Ground Lift switches and are also available with passive splitters.

All the connector contacts used in the SB Gold Stage Box (XLR and LK multipin) are gold plated, to guarantee the maximum contact reliability. The HD 600 cable reel can store up to 100 meters of 48, 56 or 64 individually shielded **eurocable** pairs (the use of a Flight Case is strongly recommended).
